GREAT HISTORICAL ROMANCE. By Spindler.—Published to-day.
The Invalide; or, Pictures of the French Revolution, by C. Spindler. Translated from the German. In "The Invalide," the reader will become acquainted with the Court of the unfortunate Louis XVI.—with the gigantic Miraheau—the terrible Danton—the enigmatica; Robesplerre—the monster Marat, and some of those tilus trious generals who supported the cause of freedom against the combinations of princes and aristocrats. He will, moreover, have the pleasure of tracing the fortunes of a here who fought with Washington and Lafayette fo the Independence of America, and of being almost a wit-ness, we might say, of those grand achievements by which the supernatural geatus of Napoleon astonished the world Without leaving his home, he may hear the roar of the French cannon recchoed from Mount Tabor—observe how the Austrians were beaten at Marengo-admire the gor geous speciacie at Soulogne-march post-haste through Germany, to see the French eagles souring over the walls of proud Vienna-speed to Saragossa-thence return to stand aghast at the heroic struggle of Massena at Essling and witness the death wound of the immortal Lannes at Lohan. We confidently predict that the reader, whether

a brave man or chivalrous youth, a sedate matron or a blushing maid, will admit that the author of this work is worthy of his high reputation.

Complete in one volume. Price 50 cents. Published by

my20 21 BURGESS & GARRETT, 22 Ann et. THE FRUIT GARDEN.—Published
This Day-Second Edition of THE FRUIT GAR
DEN, a Treatise intended to illustrate and explain the Physiology of Fruit Trees, the Theory and Practice of all operations connected with the Propagation, Trans' planting. Pruning and Training of Orchard and Garden Trees, as Standards, Dwarfs, Pyramids, Espailers, &c., the laying out and arranging different kinds of Orchards and Gardens, the selection of suitable varieties for different purposes and localities, gathering and preserving Fruits, Treatment of Disease, Destruction of Insects. Descriptions and Uses of Implements, &c , illustrated with upward of one hundred and fifty figures, representing different parts of Trees, all Practical Operations, Forms of Trees, Designs for Plantations, Implements &c. By C. Barry, of the Mount Hope Nurseries, Rochester, New-York, 1 vol 12mo. It is one of the most thorough works of the and we have in dealing in particulars as well as generalities, and impa-ny valuable hints relative to soil, manufes, princing and to Bloaton Gazat

many valuable lints relative to soil, ministree, princing and transplanting.

"A mass of useful information is collected, which will give the
work a value seen to those who possess the best works on the cultivation of fruit yet published.

"His work is one of the completest, and, as we have very reason
for behieving most accurate to be obtained on the subject."

"A concise Manual of the kind here presented his long best
wanted, and we will venture to say that, should this volume be care
fully studied and acted upon by our industrious farmers, the quantity
of fruit in the State wound be decided in five years, and the quality
of great in the State wound be decided in five years, and the quality
of great in the State wound be decided in five years, and the quality
of great in the State wound be decided in five years, and the quality
of great in the State wound be decided in they seen, and the qualities of farmer may find direction for the
simplest instates, as well as those which trouble older basis. The
book, we think, will be found in aluable. [Sewark Dally Adv. JUST PUBLISHED:
